PULVERANALYSE®
Fine Powder Analysis

TiO₂-PIGMENT CONSULTING · SOURCING · SAMPLING

OUR SERVICE

With access to state of the art research infrastructure and technical know-how we use comprehensive process oriented TiO₂ pigment data of a wide spread selection of available TiO₂ resources worldwide to address your inquiries from a scientific, technical, as well as economical perspective. We offer TiO₂ pigment sourcing for paint & coatings and plastics end-users, optimized for new and existing processes.

OUR EXPERTISE

With over 25 year expertise in TiO₂-pigments we offers its proficient consulting, sampling and sourcing services to the TiO₂ pigment enduser industries. Existing worldwide networks and comparable application relevant data on all major TiO₂ pigments and manufacturers enable us to provide you the optimal solution for pigment selection and TiO₂ grade replacement.

YOUR BENEFIT

- **Access & Sourcing:** Direct access; decision-ready data for optimal TiO₂-grade selection. Foundation: Comprehensive, application-oriented TiO₂ data on globally available grades and supply sources.
- **Analytics & Sampling:** Pigment testing as well as powder and dispersion analytics; targeted sampling and application-relevant data.
- **Support & Chemistry (TiO₂):** Claims handling & RCA; surface post-treatments and TiO₂ chemistry; identification and classification of post-treatment substances.
